

**CITY OF OCEANSIDE
NEIGHBORHOOD SERVICES DEPARTMENT
PARKS & RECREATION DIVISION**

July 2009

To Whom It May Concern:

As a Manager in the City of Oceanside's Parks and Recreation Division, I have the responsibility of coordinating and working with many vendors and service providers to ensure our programming and events are well received by the public. One very important component to any special event or community program is documenting it's success. I find no better way to do this than by photography. It has been my pleasure to work with **Lisa Hamel** of **Signature Photography** for the past six years. She is always my first choice in a photographer because of her knowledge, artistic qualities, and extreme professionalism. She is punctual, does a fabulous job at blending into the event to ensure we capture an authentic photographic documentation and is prompt at returning proofs to review. Lisa is high energy, has a fun and comfortable personality that lends itself to working with all ages and in all venues and is truly been a key component in capturing still photography that we find priceless when marketing our services to the public. I am thrilled to recommend her services and hope that when choosing a photographer you will see what a gem she truly is.
